User Manual

INTRODUCTION

This user manual relates to Blastsafe™ SKYWALKER - boots for abrasive blasting. These boots are classified as personal protective equipment. The CE mark confirms that the product satisfies the applicable requirements and fulfils all requirements as specified in

EN 30345:2022

The overall classification for boots with two or more layers does not necessarily reflect the performance of the outermost layer. The tests were carried out without taking the reinforcement patches into account. Therefore, the areas covered by reinforcement patches may have a higher protection level.

Warning

The boots contains natural rubber which may cause allergic reactions.

PURPOSE AND APPLICATIONS

Blastsafe™ SKYWALKER is designed for use in environments where the Operator need protecting from ricocheting blasting media, dust, fumes, or gases. It is recommended to use the boots in combination with complimentary protection equipment.

RESTRICTIONS ON USE

Blastsafe™ SKYWALKER are not suitable for use in areas with intense heat, radiation, open flame, explosive potential or whenever there is a risk of high concentration of hazardous substances, thereby creating an immediate risk to health.

Blastsafe™ SKYWALKER shall only be used by skilled operators which are fully aware of the hazards that may arise because of the work being carried out and shall not be worn if there is a risk of getting caught in moving machine parts.

BEFORE FIRST-TIME USE

Before use make sure the boots are free of any defects or damages that may have occurred during transportation or storage.

FITTING INSTRUCTIONS

Make sure to use a boot size corresponding to the size of your foot. Foot shall be allowed to easily enter the boot.

CLEANING

After use clean the boots for a longer lifetime.

MAINTENANCE AND INSPECTION

Boots shall be visually inspected after each time used.

MAINTENANCE ROUTINES

Before use, a visual inspection shall be carried out.

After use, the boot shall be brushed free of dust and visually inspected. Check boots for tear and wear. Discard boot with any sign of damages. Disposal should be done in accordance with applicable local laws.

STORAGE

Blastsafe™ SKYWALKER shall be stored in a dry and tempered environment and not exposed to direct sunlight.

MATERIALS

Kevlar®, Polyester, TPU, Neoprene, Steel and Natural Rubber.
